Dear 2024 Summit County Republican Delegate:

Two years ago, we made history!

Thanks to Grass Roots supporters like you, Phil Lyman received 200,000 write-in votes, the most of any national campaign outside of the presidency.

Now he needs our help more than ever. Because now he's running for U.S. Congress in Utah's 3rd District.

He's the same great Phil. Principled. Independent. Looking out for Utah and his constituents. Totally transparent. But now with expanded horizons.

He won't vote for a kill switch. He'll protect [REDACTED] from digital IDs. He won't vote to renew FISA, or to hide House Ethics Records. He won't support H1B, nor any other temporary worker visas. And he fought for election integrity long before there even was a Save America Act.

Not part of the Utah Swamp, he can't be bought. That's why all the Pac money is with his opponent. But if **Texas love** can't be bought for \$170 million against Ken Paxton, shouldn't Utahns be able to do the same for Phil, a candidate who really listens? He doesn't support the Box Elder data center either.
